Usage

Play via computer:

Activate computer's Bluetooth (If the computer has no built in BT, plug in a BT adapter, install BT driver.) Turn speaker power on - Search BT speaker - Paring - Connect and play.

Play via Mobile phone:

Activate Mobile phone's Bluetooth - disconnect other paired devices - Search BT speaker - pairing - connect

Play with direct connection: Attach the included cable to the 1/8" connector in the back of the duck to the headphone/speaker jack on your audio source.

TF card usage: Insert TF memory card in slot on back of duck and play music from card.

******NOTICE******

The duck is water-resistant. It can be used in the shower where there is moisture but is not intended to be submerged under water. If water is sprayed directly into the speaker holes or dropped into water it will damage the electronics inside and it may stop functioning. It is not water-proof.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **Shenzhen FLS Electronic Co., LTD** may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
