

When use as single speaker

1. Bluetooth function

Turn on the single speaker ,turn on your mobile phone and activate the bluetooth function. Search for bluetooth devices. The unit "TWIN SPEAKER" will show up in your phone. Click it, the mobile device will pair with the single speaker. Then you can play music by the single speaker. If the password is needed, type in "0000".

2. Charging:

Use the USB cable to charge the speaker, the led indicator will be light in red, when fully charge, the red light will be off.

Usage Tips:

1. Make sure your phone, tablet, laptop or other desktop device is bluetooth –enabled.
2. Please fully charge the speaker before the first use.
3. The operational range of the speaker may be influenced by obstructions like walls, pillars, etc. To ensure a stable connection, we recommend avoiding such obstructions whenever possible and/or shortening the distance during use.
4. Power off the speaker when not in use .

User manual

Thank you for your purchasing of our TWIN bluetooth speaker.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Shenzhen FLS Electronic Co., LTD may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
